MILAN 720 - Denver F2

Milan is a modular bioethanol fireplace designed for built-in, wall-mounted or freestanding installation. The construction allows configuration with interchangeable front and rear panels in metal, wood or textile finishes. The fireplace is supplied with the Denver F2 burner, featuring two flame levels, e-Ribbon Technology and an integrated CO_2 sensor. Milan is developed as a plug-and-play solution for straightforward integration into modern interiors.

ELECTRONIC PUMP
Included: External customised filling pump for safe and easy refuelling.
Can also be used to empty the fuel tank if required.

OPERATION
Included: The fireplace is operated using the included remote control or via the integrated LCD control panel on the burner.
