MEDIA WALL FIRES

Here for you...

NATIONWIDE RETAILER NETWORK

With our extensive network of over 300 dedicated retailers, it has never been easier to find the Evonic fire you are looking for. Our website features a detailed search engine to locate your nearest Evonic Fires dealer. Scan the QR code to view our Where to Buy page.

CUSTOMER SERVICE

Our dedicated team work tirelessly to ensure we offer the highest calibre of customer service. The Evonic Fires sales department are always on hand to answer any queries you may have regarding our products before or after you make a purchase, and our knowledgeable service department will always have time to discuss any after sales questions, to ensure you are getting the best performance from your Evonic fire.

FIVE YEAR WARRANTY

All our products come with a five year cover as standard. For year one, parts and labour will be covered, and to qualify for the additional four years, parts only warranty, consumers will have to register their product on the Evonic Fires website within 30 days of purchase. During years two to five there will be a manufacturers chargeable service call out option. Scan the QR code to be taken to the product registration page.

Manufactured in the United Kingdom. The images in this brochure are produced using photography and CGI.
Although the utmost care has been taken to accurately portray our products, we always advise a viewing in person at an approved Evonic Fires retailer's showroom. Evonic Fires pride itself on constant development and improvement. All product descriptions and sizes are accurate at the time of publishing but are subject to change without formal notice.

WHERE INNOVATION MEETS ELEGANCE!

Founded in 2005 in Stratford-upon-Avon, the heart of Shakespeare country, CK Fires Ltd is a multi-award-winning manufacturer of cutting-edge electric fires. Its Evonic Fires brand combines craftsmanship with advanced technology, offering a variety of styles, sizes, and flame effects to suit any interior.

From our 30,000 sq ft manufacturing facility, every appliance is carefully assembled using top-quality components, ensuring innovation, reliability, and longevity. Choosing an Evonic Fires fire adds warmth and style to your home, supports British jobs, and helps reduce your carbon footprint — delivering a fire that's as responsible as it is beautiful.

CONTROLLING YOUR FIRE

Access and control the features of our fires through the e-smart Plus app on your phone or tablet. These fires are compatible with Amazon Alexa or Google Assistant for voice control. A remote handset comes as standard with all models, or can be integrated into a home automation system, such as Control 4.

LOW RUNNING COST

Based on a e-lectra 1500, the running cost, for 4 hours, using the flame effect only is less than 2p. Over the same period, but with turning the heat on, it's less than £1. *

*Energy usage based on a e-lectra 1500 fire. Prices are calculated using the UK: Energy Price Guarantee (July - September 2026) fixed unit rate of 26p per kWh. Please check your tariff for detailed cost of running. Prices rounded to nearest whole pence. Flame effect only calculation based on 4 hours usage. Heat calculation based on 4 hours of thermostatic usage with 50% duty cycle plus flame effect. Calculations do not include installation, maintenance, or servicing.

British or Cotswold logs

Ceramic logs

Real Oak logs

The real oak fuel beds are meticulously hand-crafted at our facility in Warwickshire, each is uniquely bespoke, hand built from responsibly sourced British Oak and complimented with real wood chippings, each log set is then charred to perfection by our team of master cratftsmen.

The Heritage and Cotswold fuel beds are fixed using a solvent-free and environmentally friendly resin, ensuring quality and our commitment to ISO14001.

Scan the QR code to see how your fuel bed is crafted.

Glass...

Our built-in models come with two premium glass options: High Definition (HD) and Ultra High Definition (UHD), each offering a unique viewing experience tailored to different preferences.

HD GLASS:

- Designed to enhance the visual quality of the flame, HD glass provides a sharp and vibrant display with enhanced clarity.
- It features a minimal reflection, allowing you to enjoy a crystal-clear view of the flame while still offering a slight, natural mirror-like effect that can add depth to the ambiance.
- The reflective surface can subtly reflect its surroundings, giving a cozy, immersive feel that enhances the atmosphere.

UHD GLASS:

- UHD glass is the ultimate choice for those seeking a flawless, uninterrupted view of the flame.
- Virtually eliminating all reflection, it creates the illusion that nothing separates you from the fire itself, providing a clean, ultra-clear view.
- The non-reflective surface ensures that the flame becomes the focal point of the room, delivering a more realistic and immersive experience without any distractions.

Both glass types are engineered to maintain superior heat resistance and durability, making them ideal for long-lasting performance in your space.

Size chart...

Our built-in models come in a variety of sizes, across our ranges, allowing you to find the exact fit to create a statement showpiece.

TV Options

Choosing the ideal size TV is a vital aspect to consider when building your media-wall. Ideally, you want the television to be slightly narrower than the width of the fire in order for your wall not to look top-heavy. Below is a diagram and table to assist you, and dimensions of the fires can be found on pages 32-34.

TV SIZE	TV WIDTH	TV HEIGHT
32"	709mm	399mm
40"	886mm	498mm
43"	953mm	536mm
50"	1107mm	622mm
55"	1217mm	686mm
60"	1328mm	747mm
65"	1440mm	810mm
70"	1549mm	871mm
75"	1661mm	935mm
80"	1770mm	996mm
85"	1882mm	1059mm
